India Chamber -  
Transformation for the future

## Introduction

India Chamber is the Chamber of Commerce of India engaged in advancing Indian business and economic interest by building enabling business ecosystem.

India Chamber is a unique Indian global partnership: Various institutional initiatives working seamlessly for building global architect for enhancement of Indian business, trade and commerce and extending sustainable solutions for shared prosperity among Indian Community worldwide.

The Mission ponders upon the most critical issues of present generation and provide its platform to multi-stake holders- Business leaders, Cultural leaders, Policymakers, Innovators, thought leaders, intellectuals, academia etc. to construct developmental agenda and drive and shape the future of India and its global community.

Mission strives on the idea of 'People-centric' design and its impact on their businesses and growth.

## Overview : Platform for building a unique Indian Global Partnership

### Global Business Ecosystem

India Chamber is engaged in advancing the business and economic interest of India by building and enabling global business architecture

### Act as a Catalyst

In bringing about growth and development of Indian Industry, while identifying and strengthening industry's role in the economic development of the country

### Business Centric

Building sustainable network of Indian community globally and engaging them for growth, development and shared prosperity. A partnership between Government, academia and private industry – that influences the best practices.

# Our Actionable : Enabling Business Ecosystems

## Interface between government institutions and business leaders

Healthy interface between business leaders across the globe

### Impact :

- Emergence, development, and effectiveness of governance to have a better development of the economy
- Information and decision support leading to interactive governance

## Platform for networking and impact leadership

- Will create a natural synergy across leaderships of various industries, forums, councils that will create a conducive interaction and result in better understanding of problems faced by corporate & government heads

## Ability to advise and effect policy changes

Create ROI for business ecosystem:

- Formal representation of specific stakeholders in strategic decision making, advisory committee to be established
- Members of the governing body who are appointed for their technical expertise/industry knowledge will support robust decision making for state & country's interest

## Provide knowledge base for better governance practice

Proper governance provides the means to help an organization achieve its goals and objectives

- Result in a more effective networking
- Learn from problems faced across industries and governments
- Enhance proactive discussions

## Large resource pool of industry veterans with expertise across sectors

- Leaders to adopt a framework for strong, sustainable and balanced growth
- Draw upon experts from around the world to pool their industry expertise and develop perspectives, resources and capabilities so that businesses can prepare for the challenges and opportunities ahead

## Global Community integration through Physical, Digital and Knowledge networks

- Multiple institutional global platforms for seamless connect
- Physical global network will help to aid a seamless business and cultural interactions and expand Indian business footprints globally.

# Our Role : Setting the Agenda for India based on key strategic plans

## Facilitation

Provide a comprehensive framework for Indian trade and business worldwide by building global linkages, alliances, partnerships that will help scale their businesses with following functions
